Development of EULAR Recommendations/Points to Consider for the generic core competencies of Health Professionals in rheumatology

Surname:

Initials:

Prefix:

Country:

Organization:

Are there sets of competences for health professionals in rheumatology (HPRs) at a postgraduate level in your organisation? With the term 'health professional' we mean occupational therapists, physical therapists and nurses. Please specify if you have one set of competences for all professionals or if different sets of competences exist for each profession specified below.

For example, in the UK a set of competences has been proposed for all community-based nurses and allied health professional in relation to Osteoarthritis and inflammatory arthritis. Reference: Erwin, J., Edwards, K., Woolf, A., Whitcombe, S., & Kilty, S. (2017). Better arthritis care: What training do community-based health professionals need to improve their care of people with arthritis? A Delphi study. Musculoskeletal Care.
