

Supplemental Table 1. Checklist to include when reporting a Q-methodological study by Churruca K et al (12) is licensed under [CC BY 4.0](https://creativecommons.org/licenses/by/4.0/).

Checklist	
How items/statements for the Q-set were collected	<input checked="" type="checkbox"/>
How the statements were refined and reduced to produce the draft and final Q-set	<input checked="" type="checkbox"/>
The number of statements in the final Q-set	<input checked="" type="checkbox"/>
What, if any, piloting was done and what the results were	<input checked="" type="checkbox"/>
The materials used for the Q-sorting task including the ranking scale and anchors	<input checked="" type="checkbox"/>
How the Q-sorting task was administered	<input checked="" type="checkbox"/>
What, if any, other methods were used in conjunction with Q-sorting, and how the data captured by these methods was used in relation to Q-data	<input checked="" type="checkbox"/>
The techniques used for factor extraction and rotation	<input checked="" type="checkbox"/>
The software programs used to administer and/or analyse the data	<input checked="" type="checkbox"/>
The information used to decide the number of factors to extract, rotate and interpret	<input checked="" type="checkbox"/>
The amount of variance explained by the factor solution	<input checked="" type="checkbox"/>
The processes for interpreting the factors	<input checked="" type="checkbox"/>
A rich narrative for each factor that explains the shared meaning it represents, supported by Q-set statements, and participant quotes where available	<input checked="" type="checkbox"/>
