

Supplemental Figure 1**Timeline of treatment**

Clinical Case: A rare side effect of methotrexate therapy – drug induced osteopathy with multiple fractures of the lower limb

2015												
	January	February	March	April	May	June	July	August	September	October	November	December
Therapy rheumatoid arthritis							intermittently prednisolone					
Therapy osteoporosis												

2016												
	January	February	March	April	May	June	July	August	September	October	November	December
Therapy rheumatoid arthritis	intermittently prednisolone											
Therapy osteoporosis												

2017												
	January	February	March	April	May	June	July	August	September	October	November	December
Therapy rheumatoid arthritis	intermittently prednisolone											
Therapy osteoporosis												

2018												
	January	February	March	April	May	June	July	August	September	October	November	December
Therapy rheumatoid arthritis	intermittently prednisolone											
Therapy osteoporosis												

2019												
------	--	--	--	--	--	--	--	--	--	--	--	--

	January	February	March	April	May	June	July	August	September	October	November	December
Therapy rheumatoid arthritis	intermittently prednisolone										methotrexate	
Therapy osteoporosis											alendronate	

2020												
	January	February	March	April	May	June	July	August	September	October	November	December
Therapy rheumatoid arthritis	methotrexate											
Therapy osteoporosis	alendronate					denosumab			romosozumab			

2021												
	January	February	March	April	May	June	July	August	September	October	November	December
Therapy rheumatoid arthritis	methotrexate											
Therapy osteoporosis	romosozumab									denosumab		

2022												
	January	February	March	April	May	June	July	August	September	October	November	December
Therapy rheumatoid arthritis	methotrexate									tocilizumab		
Therapy osteoporosis	denosumab
