Pop: population, SC: single center, MC: multicenter, Long: longitudinal, CD: Crohn's disease, UC: ulcerative colitis, IBDU: inflammatory bowel disease unspecified, Rheum: Rheumatologist, SpA: spondyloarthritis, AS: ankylosing spondylitis, pSpA: peripheral SpA, A: axial, P: peripheral, mNY: Modified New York Criteria, ESSG: European Spondyloarthropathy Study Group, Rheum: rheumatologist, IBD: inflammatory bowel disease, #: Number, Yrs: years

¹ Patients with ≥ 1 contact with health system

² Mixed inflammatory articular disease

³ 2009 ASAS MRI criteria

⁴ "Arthritis/arthralgia," did not distinguish between the two entities

⁵ First extraintestinal manifestation only

⁶ Mono,oligo, and polyarthralgia, did not mention arthritis

⁷ Used rheumatologist physical exam from 5 year follow up study

⁸ Reported 1% based on patients who had imaging. Estimated prevalence 2% based on expected results if imaged all patients

⁹ Isolated sacroiliitis

* Prospectively enrolled
